You can of course then adapt the functions to the buttons as you please, going through Capture Keys, and assign another function.

You can change/add the functions of faders /encoders via the Detect Fader key

Just change the amount of Free Faders in the field #Faders / Encoders, then select one of the lines created below, move the fader / encoder, finally assign it a function by double clicking on the line concerned.

This configuration affects:

- The faders from 1 to 6 at fields 1 to 6 in Bank 1
- les 2 faders 7 et 8 au Crossfade du Playback 1. -
- The fader 9 at Intensity / Speed Control
- the first 4 encoders from top right to Exclusive Fields C1 and C2
- The last 2 encoders at the PlaybackBack Master & Grand Master -
